Nicolas Grenié

Developer Relations Lead | AI & Developer Tooling

+34 636 08 5250 · me@nicolasgrenie.com · nicolasgrenie.com · LinkedIn: nicolasgrenie · GitHub: picsoung

Developer advocate with 10+ years helping developers build with APIs and technical platforms. Created documentation, SDKs and tutorials for AI tools, and runs HackBarna's AI hackathons.

Community Leadership

Founded HackBarna AI hackathons: 3 weekend editions plus monthly events. September 2026: 800 applicants, 150 hackers in person, 68 projects.

Work Experience

Developer Advocate | SLNG.ai

Dec 2025 - Oct 2026

Voice AI infrastructure for speech-to-text, text-to-speech and voice agents.

- Shipped JavaScript and Python SDKs, an n8n plugin and an agent skill. Built voice AI integration demos.
- Built Mintlify docs from OpenAPI and AsyncAPI, automated updates and wrote tutorials for developers and agents.
- Supported 4 hackathons and 2 workshops, using developer feedback to improve docs, SDKs and the product.

Developer Advocate | Typeform

Mar 2018 - Dec 2025

Online forms and data-collection platform with APIs and an integration ecosystem.

- Owned docs, tooling and onboarding on Typeform's partnerships team (10,000+ app ecosystem).
- Hosted 15 Hack Together live coding episodes (22k views), with guests from Postman, n8n and Notion.
- Researched and built Typeform's ChatGPT plugin in 2023, letting customers create and edit forms through conversation.
- Built launch integrations for Intercom, Canva and Notion; also worked with Slack and Aircall and shared partner feedback with Product.
- Saved Barry's about 8-10 hours of manual work weekly (customer-reported) through an API integration.

Developer Advocate | 3scale / Red Hat

Apr 2013 - Mar 2018

API management platform; 3scale was acquired by Red Hat in June 2016.

Built APIs.io (#1 on Hacker News) and co-created apis.json with Kin Lane. Organized APIStrat (300+ attendees) and monthly events for 100+ developers; created the API Escape Room at Red Hat Summit 2017.

Public Speaking

- Technical talks and workshops at Devoxx France, GenAI Summit EU, AI Summit Barcelona and Red Hat Summit.

Content & Videos

- How I redesigned our docs for agents: documentation for developers and AI agents, October 2026
- Co-authored The Seed-to-Series A DevRel Playbook with OPRTRS Club, June 2026
- Published technical tutorials and live coding sessions on YouTube
- Guest on multiple developer podcasts and livestreams

Technical Skills

Languages & Frameworks: JavaScript/TypeScript, Node.js, React, Vue, Next.js, Python.

AI & Developer Platforms: LLMs, OpenAI, Claude, Hugging Face, Replicate, Ollama, Langfuse, RAG, voice AI, STT/TTS, agent workflows.

Infrastructure: Supabase, Vercel, MongoDB, vector databases, webhooks, integrations.

Developer Experience: SDKs, API design, sample apps, technical writing, live coding, workshops.

Education

MSc in Computer Science, UTBM (Université de Technologie de Belfort-Montbéliard) 2007 - 2013

Computer Science (Exchange), St. Olaf College, Northfield, MN 2010 - 2011

Languages

French: Native; English: Fluent; Spanish: Fluent.
